HOW TO ENABLE **MULTI-FACTOR AUTHENTICATION** FOR CAMPUS FEDERAL ONLINE BANKING

You can set up *MFA* (*Multi-Factor Authentication*) via text, email, voice or authentication app. This increases the security for logging into online banking.

If using an authentication app, you can use any of the following third-party apps:

- Google Authenticator
- Twilio Authy
- Duo Mobile

2 Once you are logged into Online Banking, navigate to the **Tools tab** and select the **Settings** option.

8 Next, choose the **Security** tab then scroll down to the **Two-Factor Authentication** section.

You will then see a unique QR code to scan with your mobile device using your preferred 2FA app or the code can be manually entered into your 2FA app.

Then, you will need to **Enter** the code quickly from your 2FA app into the code box below, and click **Next**.

B The final step is to **verify** your identity by entering the code sent to you by text, email or phone call. Once complete, you will be all set!

If you have questions, please contact us at **888-769-8841**. We value your membership and want to help keep your account information safe.

Thank you for being a valued member!
